# MORE FOR THE ENVIRONMENT

Innovation in sustainable packaging

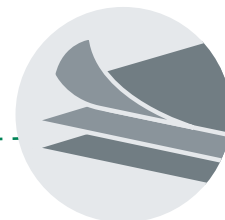

Drum bags

220 lt

Materials

Multilayer structure with barrier properties, guaranteed by Goglio Recycle Ready Technology: special film made predominantly of polyethylene, with no compromise on performance. Suitable for concentrates, sauces and other liquid foods.

- BARRIER ★★★
- FLEX CRACKING RESISTANCE ★★★
- MECHANICAL PERFORMANCE ★★★

IBC bags

≥1000 lt

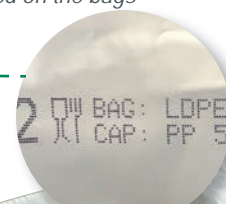

Tappo

Remove PP/Nylon green cap before disposing of.

Bag labeling

Unique QR code and environmental labeling printed on the bags

## "Recycle ready" materials

This innovative aseptic bag formulation allows the material to maintain its barrier qualities and - if clean and free of product waste - allows recycling at existing PE FILM recycle streams.

A solution to lessen the impact of packaging waste.

A step forward in sustainability for the environment and our natural resources.

OXYGEN ★★★  
MOISTURE 🚰🚰🚰
